

## How do you convert and engage more website visitors?

Using smart, rules-driven dynamic content that is displayed to visitors at the right time, with the right message.

*98% of visitors to B2B websites  
don't ever sign up or convert  
- MarTech*

Lead Liaison's SiteEngage™ helps companies engage website visitors and convert anonymous website traffic into identified individuals. Companies can use SiteEngage™ to deeply personalize content, whether it's embedded or displayed through an "engagement window" that's overlaid onto a website.

### As a Lead Liaison customer using SiteEngage™ you'll:

#### CONVERT MORE PROSPECTS

Convert more visitors from anonymous to identified by capturing email, name and other information in popups that are displayed at just the right time. Show popups or embedded content tailored to your visitor.

#### PERSONALIZE MESSAGING

Make your website content more personalized to have meaningful interactions and dialog with your visitors. Show names, locations, customer information, company names, and much more by using merge tags in your content.

#### ENGAGE VISITORS

Grab your visitor's attention before they leave with compelling offers or incentives. Bring your site to life. Use popups to deliver crash courses or incent visitors with compelling offers. Connect conversions to automated marketing campaigns to deepen relationships.

#### TIME INTERACTION

Trigger engagement windows that convert more prospects at just the right time. Use "Exit Intent" technology that triggers interaction when a person tries to exit your page. Trigger on scroll for long pages, number of page visits, or time on a certain page.
