Lead Liaison offers training in ½ day, full day, or multi-day sessions. For onsite training, an experienced instructor will visit your office location and train up to 10 students at a time. Training will be tailored to your situation, and can include hands-on work. Grab your laptop and an internet connection and you're ready to go!

As a Lead Liaison customer utilizing our onsite training, you'll:

RECEIVE TRAINING FROM AN EXPERIENCED INSTRUCTOR

We'll provide one of our experts who knows the software extremely well. They'll take the time to understand your company, goals, and current situation. Part of the training can be spent developing a strategy.

EXECUTE YOUR STRATEGY OR KEEP IT HIGH LEVEL

Our trainers are experienced enough to work on implementing your goals in the software while offsite/onsite. Alternatively, the instructor can keep the training more product specific, and higher level, using a mixture of PowerPoint, chalkboard, and access to the application.

GET TRAINING TAILORED TO MEET YOUR NEEDS

We realize every company is different, with different needs. That's why we offer training in different time periods, from ½ day, full day, or multi-day that's onsite or offsite. If these standard packages don't work for you, let us know and we'll fit your needs.

ONSITE OR OFFSITE, YOUR CHOICE

If you choose onsite training one of our seasoned instructors will arrive at your facility ready to get you ramped up. For offsite training, we use GoToMeeting to easily share screens and collaborate.
